100%

EcoLogo[®]

The mark of responsible use of forest resources

AMAZING RESULTS

This paper's oatmeal shade provides a great background for vibrant colors, resulting in unique and eye-catching effects.

AN EXCELLENT VALUE

A very good choice when it comes to commercial and digital printing, this paper ensures professional printing results.

Specify Cascades Enviro Kraft Print for your commercial printing projects. Talk to your supplier about it. You will discover that it is a naturally good choice!

SOME CHOICES ARE EASY TO MAKE

At Cascades, waste materials are resources to be valued. Not only does this philosophy translate into innovative and useful products, it is at the very core of our business strategy. It is our commitment towards the environment and society.

By transforming recycled materials, Cascades saves 30 million trees each year. We also consume 80% less water than the industry average and use biogas as an energy source in some divisions. Furthermore, for each ton of paper that does not go to landfill, 3m³ of landfill space is saved.

Respect for the environment is not a trend at Cascades; it is a deeply ingrained value. In fact, it has been our commitment since the very beginning.
